## FAQS

### **Will guests have to submit to a health screening or get a health practitioner's approval before being able to travel?**

As regulations and requirements continue to change by province and by country, it is difficult for us to say with certainty what guidelines or requirements local public health authorities will put in place in the countries we visit. We are constantly monitoring situations across the world, but you can expect to fill out a wellness declaration for Pitmar Tours regardless of your destination or point of origin.

You can rest assured that we will adhere to local laws and best practices advised by the international health community in order to protect our guests' well-being and ensure an enjoyable experience. We will notify you of necessary requirements for your destination and keep our website updated with the latest information.

### **What will happen if local or international health authorities change travel advisories or restrict travel while a tour is taking place?**

If health authorities or governments recommend or implement restrictions for visiting certain areas or entire countries that are part of the planned itinerary, we will make necessary alterations to the tour based on the safety and enjoyment of our guests.

### **If my tour operates, can I expect that parts of my itinerary will be changed, closed, or unavailable? What will Pitmar Tours do if this happens?**

Pitmar Tours will resume operations when we are confident we can provide an experience that best meets the planned itinerary and safeguards our guest's well-being as best as possible. This new (and temporary) way of living and operating has affected all countries and partners we work with. We are all learning how to best operate in a new way. Travel is adventure – even during the best of times your itinerary may change depending on local events and conditions – and the adventure is part of the fun.

### **Will Pitmar Tours be providing masks and sanitizer to all guests?**

While we recommend that guests bring their own personal protective equipment they are most comfortable using, Pitmar Tours will provide face masks to all guests. Hand sanitizer will be available in the front of the motor coach at all times.

# PITMAR TOURS

**Will Pitmar Tours be reducing tour group sizes so that the tour is less crowded and guests have more space to practice physical distancing?**

Depending on the regulations in place at the time of the departure, We will operate with an adequate number of empty seats on the coach to allow guests to space out from one another for a more comfortable experience.
